

HIS CHAIR

SCF.H112 (2020)

COLLECTION HIS & HER

These two collections are inspired by artistic movements from the beginning of the 20th century, namely in the aesthetic plurality that spread throughout Europe of Art Nouveau, and later in Art Deco.

We explore these movements strongly associated with expressions and values with which Stylish Club identifies itself, such as the expression of its own identity, the valorization of noble materials, human labor as an enhancer of aesthetic and cultural quality inherent to the product and the richness of the product Final. This product is intended for a demanding public, attentive to trends, and has a differentiating identity as to the common consumer.

His and Her are complementary collections, whose aim is to affirm the brand's aesthetic identity by creating androgynous and heterogeneous environments, which are identified with both male and female characteristics, with a specific and simultaneously plural, post-modern language.

HIS CHAIR

SCF.H112 (2020)

DESCRIPTION

Chair with upholstered seat and back and metal structure.
